

Product Name: Split

Team Name: Subscription Splitter

Sprint Completion Date: March 16, 2018

Sprint 4 Plan

Goal: Finish implementing the facebook login and set the correct permissions. Implement the feature to give reviews on each users. Fix the UI for each of the subscriptions' group pages.

Tasks:

User Story 1: As a developer, I need to write the terms and services for the users.

1. Find out the subscription plans for each services [1]
2. Set permissions for facebook login [3]
3. Route each subscription to the correct group page [5]
4. Display what each person will have to pay to be in the group [5]
5. Fix UI for new pages [3]

User Story 2: As a user, I need a way to know the person is splitting subscription with me is trustworthy so that they don't steal my money.

1. Fix the comments section of each user page [5]
2. Display roles of each person in the group [5]
3. Display public information about each person in the group [5]
