Product Name: Split

Team Name: Subscription Splitter

Release Name:

Release Date: March 20, 2018

Revision Number: v1.0

Revision Date:

<div align="center">

Release Plan

</div>

High level goals:

- Implement a sign-up page, homepage, group page, and profiles

- Create a service that allows users to connect and divide the cost of online subscription services such as Netflix, Chegg, and etc.
- Implement user profiles and a secure form of payment
- Categorize subscription services so users can easily find desired services
- Establish a credibility-based individual rating system to ensure honest and fair transactions.
- Allow users to form groups based on what subscription services they are looking to split
- Display an average group rating for each group
- Save money for customers and provide a solution to illegal downloading

User Stories:

Sprint 1:

Priority	User Story	Goal	Story Point
1	As a developer, I need to learn the technology needed to create our web application, so that it can be used by other people	-Learn all the technology we need to build our web app	13
2	As a user, I need an easily navigable website, so that I can see what subscriptions are available.	- Create a basic layout of our website	5

Sprint 2:

Priority	User Story	Goal	Story Points
1	As a user, I need to have an account, so that I can post to find people who wants to split subscription with me	-Create a database to store user information -Let user make a profile	8
2	As a user, I need a secure way to pay, so that my information isn't stolen.	-Use payment API to let users make payments	5

Sprint 3:

Priority	User Story	Goal	Story Points
1	As a developer, I need to find more subscriptions, so that more people will use the service.	-Find mainstream subscriptions and put it on our website	5
2	As a developer, I need to make my website look appealing, so that it's presentable and user friendly.	-Make the layout of our website easy to navigate.	5

Sprint 4:

Priority	User Story	Goal	Story Points
2	As a developer, I need to write the terms and services for the users.	-Create a document for user to agree	3

1	As a user, I need a way to know the person who is splitting subscription with me is trustworthy, so that they don't steal my money.	-Create a way to leave reviews for users	3
